CAREER OBJECTIVE

Motivated B.E. Computer Science undergraduate (CGPA 8.16) with hands-on experience in AI, cloud computing, and full-stack development. Passionate about emerging technologies including Artificial Intelligence, Machine Learning, and Cloud platforms. Seeking a software development internship to contribute to real-world, client-impacting projects and grow within a dynamic global IT environment.

EDUCATION

B.E. Computer Science and Engineering

2023 – 2027 (Expected)

MRK Institute of Technology, Chidambaram, Tamil Nadu | CGPA: 8.16 / 10.0 | 3rd Year (Semester 6)

INTERNSHIP EXPERIENCE

AI Intern – Infosys

Duration: 2 Months

Domain: Artificial Intelligence & Real-Time Project Exposure

- Gained strong applied knowledge of Artificial Intelligence concepts under expert industry mentorship.
- Participated in live AI project development, understanding end-to-end implementation and deployment workflows.
- Explored data processing, model training, and result evaluation in a professional project environment.
- Strengthened problem-solving and analytical skills through structured, project-based learning.

Virtual Intern – AI & Cloud Computing (IBM)

Completing: June 2026

Domain: Artificial Intelligence & Cloud Computing — IBM SkillsBuild Platform

- Completing structured training in AI fundamentals and cloud computing on IBM's enterprise-grade platform.
- Gained practical knowledge of IBM Cloud services, AI tools, and cloud-based deployment strategies.
- Developed skills in cloud architecture and AI integration using IBM's industry-standard technology stack.

PROJECT

Multi-Model AI Agent for Automated Health Diagnostics

2025 – 2026

Tech Stack: Python, Multi-Model AI, AWS, HTML, CSS, JavaScript, Backend APIs, Git & GitHub

- Designed and developed an intelligent AI agent using multiple AI models to automate health diagnostics.
- Built a full-stack application with a responsive frontend interface and robust backend API for real-time data processing.

- Integrated multi-model AI architecture to analyze patient data and provide accurate health insights and recommendations.
- Deployed the solution on AWS cloud infrastructure ensuring scalability, reliability, and secure data handling.
- Used Git and GitHub for version control and collaborative development throughout the project lifecycle.

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, HTML, CSS, C (Basic)

Cloud Platforms: AWS (Amazon Web Services), IBM Cloud

Tools: Git, GitHub

AI / Domain: Multi-Model AI, AI Agent Development, Automated Diagnostics

Soft Skills: Problem Solving, Communication, Teamwork, Quick Learner, Adaptability

CERTIFICATIONS

- Programming in Java – NPTEL (Score: 100%) | Semester 6, 2026
- AI & Cloud Computing Virtual Internship – IBM SkillsBuild (Completing June 2026)
- Artificial Intelligence Internship Completion Certificate – Infosys

ACHIEVEMENTS & EXTRACURRICULAR ACTIVITIES

- Winner – Quiz & Debugging Events, AVC College Symposium, Chidambaram (2026)
- Paper Presentation – AVC College Symposium, Chidambaram (2026)
- Participated – National Level Symposium, Anna University, Panruti (2025)

DECLARATION

I hereby declare that all the information provided above is true and accurate to the best of my knowledge. I am enthusiastic about contributing effectively and growing professionally through this internship opportunity.

Place: Chidambaram
